General Walter B. Smith
Director
Central Intelligence Agency
Washington 25, D. C.

Dear General Smith:

You will recall that at the special meeting held for the purpose of briefing the Board on the staff organization and functions, Mr. Webb requested that when reduced to writing, the briefing be furnished his department for the purpose of acquainting officers of the State Department with the work of the Board's staff. I have amended and condensed the briefing as presented, and am inclosing herewith five* copies with the thought that you might like to circulate these among the members of your staff. If you desire more copies, I will be glad to forward them.

Sincerely yours,

Gordon Gray
